Request:

On February 26, 2010, Case Agent [REDACTED] requested the above evidence be made available for CAIR review.

Summary of Examination:

Items QSA1-QSA4 were processed by CART. Case Agent conducted CAIR review on the items that were able to be imaged and returned the evidence to CART. FE [REDACTED] b6 generated review media based on the CAIR reviews. QSA2\_2, QSA3\_2, and QSA7\_1 b7C were not imaged due to inoperability, and were forwarded to CART FEDA for additional examination.

Details of Examination:

The following items were generated during the examination process:

DESA1 Seagate ST3500418AS 500GB HD, s/n GVM98CN9  
Contains the images from QSA1.

DESA2 Seagate ST31000520AS 1.0TB HD, s/n 9VX0E251  
Contains the images and related processing files from QSA1, QSA2, QSA3, and QSA4.

DESA3 One CD  
Contains Internet files extracted from the images stored on DESA2.  
One working copy of DESA3 was created for review by the IRS.

DESA4 Seagate ST31000520AS 1TB HD, s/n 9VX0CKQX  
Contains the images, related processing files, and CAIR files from QSA1, QSA2, QSA3, and QSA4.

DESA5 Two DVDs

89B-SA-62043

Submission #80663

Page 2 of 3

For Official Use Only

Contains files bookmarked by the Case Agent from the CAIR conducted on DESA4. Two working copies of DESA5 were created: one copy for the case agent and one copy to be released to the IRS at the case agent's discretion.

The following processes were performed:

- Physical examination of submitted evidence
- Hardware and system information
- Making an image
- Directory/File Listing
- Deleted file recovery
- Internet processing
- Post-exam verification of the images

Disposition of Evidence:

QSA1-QSA7 were returned to secure evidence storage. DESA1 was entered into secure evidence storage as 1B(22). DESA3 was entered into secure evidence storage as 1B(25), and a working copy of DESA3 was submitted and stored as 1B(26). DESA2, DESA4 and DESA5 were entered into secure evidence storage as 1B(27), and working copies of DESA5 were submitted and stored as items 1B(28) and 1B(29). Original notes and other documents have been placed in an FD-340 envelope to be retained.

ANDREW JOSEPH STACK III;  
VERNON HUNTER (DECEASED) -VICTIM;  
ASSAULT ON A FEDERAL OFFICER;

**Details:** On 02/18/2010 at 9:56 AM CST, FBI Austin RA responded to an airplane crash into one of the buildings housing the Internal Revenue Service (IRS). FBI San Antonio subsequently opened an investigation under classification 89B - Attack on a Federal Officer. The subject of the captioned investigation is Andrew Joseph STACK III, DOB 08/31/1956, SSAN 206-38-9049.

The following is a summary of the investigation:

On 02/18/2010, at approximately 8:30 a.m. CST, witnesses reported a blast at the subject's residence, 1827 Dapple Gray Lane, Austin, TX.

At 9:40 AM CST, STACK was cleared for take-off in a Piper PA 28 236 airplane, tail number N2889D, from Georgetown Airport, located north of Austin, Texas. According to the Civil Aviation Security Program, the owner of the airplane was Joseph STACK.

At 9:56 AM CST, an aircraft with tail number 2889D impacted the Echelon I building, located at 9430 Research Blvd., Austin, Texas. This Echelon complex, consisting of four buildings, houses government and private entities (including both civil and criminal IRS auditors and the FBI Austin RA). The building hit by the aircraft was occupied by the IRS and other joint tenants. No other buildings were damaged, including the building housing the FBI Austin RA.

On 02/18/2010, STACK's wife, [REDACTED] was interviewed by Austin Fire Department Investigators. [REDACTED] stated she had an argument with her husband, Andrew Joseph STACK, and did not stay at their residence the night of 02/17/2010. She and her daughter stayed at a local motel that night, and when they returned to the residence at approximately 9:00 AM CST on 02/18/2010, the house was on fire. She stated STACK owed taxes, was upset, and on 2/17/2010, indicated "He was not going to be around much longer, and had one final matter to take care of." [REDACTED] presence at the hotel was verified through the hotel's surveillance system.

A manifesto purported to be posted by STACK was found online on his personal website, [www.embeddedart.com](http://www.embeddedart.com). In the six This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

89B-SA-62043 - 301

b6  
b7C

page manifesto found on the website, signed by "Joe Stack," he described his hatred for the IRS, and listed his year of death as 2010. FBI Austin RA has reviewed the logs on STACK's website, and confirmed the last update to the manifesto was on 02/18/2010, at 9:12 AM CST on a Time Warner IP address. Legal process was served on Time Warner and it was determined the IP address was located at STACK'S residence.

A vehicle, found to be registered to [REDACTED] Texas license plate number [REDACTED], was located at the Georgetown Airport. This vehicle was found in slot I-15, adjacent to the last area where airplane tail number N2889D was seen parked. FBI Austin RA located and interviewed [REDACTED] stated he purchased the vehicle for STACK and was led to believe his name was removed from the vehicle's registration. [REDACTED] is a long time associate of STACK's; however, is not believed to be involved in the incident.

b6  
b7C

On 02/18/2010, at approximately 5:15 PM CST, Georgetown Police Department and the FBI Austin RA executed a search warrant at STACK's hangar as well as the vehicle parked inside the hangar. The search revealed an invoice to STACK from BayTec Containers for the purchase of two 55 gallon drums; a 55 gallon drum (consistent with, but unconfirmed to be, one of the barrels on the invoice); a business card of IRS Agent [REDACTED]; a letter presumably authored by STACK to IRS OPR; a California license plate, previously registered to a vehicle owned by STACK; and various receipts. Additionally, three airplane seats were found within the hangar and were believed to be removed from STACK's airplane.

On 02/18/2010, at approximately 7:00 PM CST, FBI ERT conducted a preliminary walk through of the Echelon Building with members of the Austin Fire Department in an attempt to locate any bodies within the structure. Personnel located remnants of one body on the exterior of the building and a second badly charred body within the interior of the building. Personnel were unable to recover the bodies because the building was still burning and was unsafe. During the morning of 02/19/2010, the Austin Fire Department declared the Echelon I Building "cold" and "handed off" the location to the FBI for crime scene processing.

During the initial stages of the investigation, it was determined there were two confirmed fatalities believed to be the subject (STACK) and IRS employee Vernon Hunter. In addition to the fatalities, 13 others were injured, with one hospitalized.

On 02/19/2010, FBI ERT, assisted by representatives of the National Transportation Safety Board (NTSB), processed the Echelon I crime scene and collected evidence and human remains. A Travis County Medical Examiner pronounced the deceased dead and removed both bodies from this location. Located in one of the deceased pant's pocket was a wallet containing identification for STACK. Additionally, the remnants of a white 55 gallon drum was

located. This drum was believed to be consistent to the previously purchased 55 gal drums purchased by STACK from BayTec. Also located during the processing of the crime scene was documentation located within the aircraft confirming the suspected aircraft's tail number N2889D. The remnants of the 55 gallon drum was sent to the FBI Laboratory for analysis. The Laboratory's examination found residue, consistent with light aircraft fuel, on the lid.

On 02/20/2010, removal of the aircraft wreckage was initiated by the aircraft's insurance company in accordance with established NTSB protocol. During the removal of the wreckage, additional human remains were found and transported to the Medical Examiner's office for analysis. The additional remains were determined to be of STACK. Final removal of aircraft was completed on 02/21/2010. Once completed, the wreckage was sent to a secure location, pending further law enforcement examination.

On 02/20/2010, the Travis County Medical Examiner's Office conducted autopsies of the two deceased bodies believed to be STACK and IRS employee Vernon Hunter. The attending Medical Examiner (ME) confirmed the deceased as Andrew Joseph STACK III and Vernon Hunter. The ME determined the cause of death for STACK was "blunt force trauma," by means of suicide. The ME determined the cause of death for Hunter was "conflagration," by means of homicide.

On the evening of 02/18/2010 [REDACTED] was re-interviewed by FBI Austin RA. No new leads were generated. Additionally, [REDACTED] comments did not identify additional collaborators. [REDACTED] granted the FBI voluntary written consent to search the STACK residence.

b6  
b7C

On 02/19/2010 ATF rendered the STACK residence safe for a search by law enforcement. On 02/19/2010 and 02/20/2010, FBI and ATF conducted a search of the residence. During the search, four computers (containing 7 hard drives), a handgun, and a passport in the name of Andrew Joseph STACK were located by agents of the FBI and ATF. The computers were seized and maintained as evidence by FBI San Antonio. Upon getting proper legal process, 5 hard drives were recovered and processed by FBI CART examiners. Data derived from the CART examination was analyzed by agents and analysts of the Department of Treasury, Treasury Inspector General's Office, For Tax Administration (TIGTA). Analysis by TIGTA located an earlier e-mail, authored several years ago by STACK, addressed to the IRS, with similar language found in the abovementioned manifesto. No additional information relevant the investigation was found. Two hard drives could not be recovered or processed, due to extensive fire damage.

On 02/18/2010, the FBI accepted custody of STACK's workstation computer from his employer, DAC International. On 02/19/2010, the FBI received consent from DAC International's

attorney to conduct a forensic examination of Stack's workstation computer. Nothing of investigative relevance was located on the computer's hard drive.

FBI Austin RA analyzed numerous call detail records associated with subject STACK, as well as his immediate family members and associates. No information relevant to the investigation was obtained from this analysis.

FBI Austin RA issued subpoenas related to STACK's financial and online activities. An in-depth analysis of the records failed to identify any information relevant to the investigation. A financial record was located indicating STACK purchased approximately 100 gallon's of fuel, from the Georgetown Airport location two days prior to STACK flying his aircraft into the IRS building. This purchase is consistent with the belief that STACK flew his aircraft into the building with a full aircraft fuel tank, and an addition 50 gallon drum of fuel onboard the aircraft.

Numerous associates and family members, to include his former spouse, residing in California, and his step-daughter, residing in Norway were interviewed, in an attempt to determine if there were any other individuals associated with STACK that had prior knowledge of or was complicit in STACK'S criminal activity on 02/18/2010. All investigation conducted indicates STACK acted alone and the attack was NOT affiliated with any International or Domestic Terrorist organizations.

FBI assumed the lead in this investigation with our partners at Department of Treasury, Treasury Inspector General's Office, For Tax Administration (TIGTA); Department of Homeland Security, Federal Protective Services; the Austin Police Department; Georgetown Police Department; Texas Department of Public Safety - Texas Rangers; Austin Fire Department; Austin-Travis County Emergency Medical Services; National Transportation Safety Board; Federal Aviation Administration; Bureau of Alcohol, Tobacco, Firearms and Explosives; and others.

It is anticipated that no Federal Indictments are forthcoming.

Title: ANDREW JOSEPH STACK III;  
VERNON HUNTER (DECEASED) -VICTIM;  
ASSAULT ON A FEDERAL OFFICER;

Synopsis: Request case be administratively closed.

Details: On 02/18/2010 at 9:56 AM CST, FBI Austin RA responded to an airplane crash into one of the buildings housing the Internal Revenue Service (IRS). FBI San Antonio subsequently opened an investigation under classification 89B - Attack on a Federal Officer. The subject of the captioned investigation is Andrew Joseph STACK III, DOB 08/31/1956, SSAN 206-38-9049.

The following is a summary of the investigation:

On 02/18/2010, at approximately 8:30 a.m. CST, witnesses reported a blast at the subject's residence, 1827 Dapple Gray Lane, Austin, TX.

At 9:40 AM CST, STACK was cleared for take-off in a Piper PA 28 236 airplane, tail number N2889D, from Georgetown Airport, located north of Austin, Texas. According to the Civil Aviation Security Program, the owner of the airplane was Joseph STACK.

At 9:56 AM CST, an aircraft with tail number 2889D impacted the Echelon I building, located at 9430 Research Blvd., Austin, Texas. This Echelon complex, consisting of four buildings, houses government and private entities (including both civil and criminal IRS auditors and the FBI Austin RA). The building hit by the aircraft was occupied by the IRS and other

joint tenants. No other buildings were damaged, including the building housing the FBI Austin RA.

On 02/18/2010, STACK's wife, [REDACTED] was [REDACTED] interviewed by Austin Fire Department Investigators. [REDACTED] [REDACTED] stated she had an argument with her husband, Andrew Joseph STACK, and did not stay at their residence the night of 02/17/2010. She and her daughter stayed at a local motel that night, and when they returned to the residence at approximately 9:00 AM CST on 02/18/2010, the house was on fire. She stated STACK owed taxes, was upset, and on 2/17/2010, indicated "He was not going to be around much longer, and had one final matter to take care of." [REDACTED] presence at the hotel was verified through the hotel's surveillance system.

A manifesto purported to be posted by STACK was found online on his personal website, [www.embeddedart.com](http://www.embeddedart.com). In the six page manifesto found on the website, signed by "Joe Stack," he described his hatred for the IRS, and listed his year of death as 2010. FBI Austin RA has reviewed the logs on STACK's website, and confirmed the last update to the manifesto was on 02/18/2010, at 9:12 AM CST on a Time Warner IP address. Legal process was served on Time Warner and it was determined the IP address was located at STACK'S residence.

A vehicle, found to be registered to [REDACTED] Texas license plate number [REDACTED] was located at the Georgetown Airport. This vehicle was found in slot I-15, adjacent to the last area where airplane tail number N2889D was seen parked. FBI Austin RA located and interviewed [REDACTED] stated he purchased the vehicle for STACK and was led to believe his name was removed from the vehicle's registration. [REDACTED] is a long time associate of STACK's; however, is not believed to be involved in the incident.

On 02/18/2010, at approximately 5:15 PM CST, Georgetown Police Department and the FBI Austin RA executed a search warrant at STACK's hangar as well as the vehicle parked inside the hangar. The search revealed an invoice to STACK from BayTec Containers for the purchase of two 55 gallon drums; a 55 gallon drum (consistent with, but unconfirmed to be, one of the barrels on the invoice); a business card of IRS Agent [REDACTED] a letter presumably authored by STACK to IRS OPR; a California license plate, previously registered to a vehicle owned by STACK; and various receipts. Additionally, three airplane seats were found within the hangar and were believed to be removed from STACK's airplane.

On 02/18/2010, at approximately 7:00 PM CST, FBI ERT conducted a preliminary walk through of the Echelon Building with

Re: 89B-SA-62043, 12/16/2010

members of the Austin Fire Department in an attempt to locate any bodies within the structure. Personnel located remnants of one body on the exterior of the building and a second badly charred body within the interior of the building. Personnel were unable to recover the bodies because the building was still burning and was unsafe. During the morning of 02/19/2010, the Austin Fire Department declared the Echelon I Building "cold" and "handed off" the location to the FBI for crime scene processing.

During the initial stages of the investigation, it was determined there were two confirmed fatalities believed to be the subject (STACK) and IRS employee Vernon Hunter. In addition to the fatalities, 13 others were injured, with one hospitalized.

On 02/19/2010, FBI ERT, assisted by representatives of the National Transportation Safety Board (NTSB), processed the Echelon I crime scene and collected evidence and human remains. A Travis County Medical Examiner pronounced the deceased dead and removed both bodies from this location. Located in one of the deceased pant's pocket was a wallet containing identification for STACK. Additionally, the remnants of a white 55 gallon drum was located. This drum was believed to be consistent to the previously purchased 55 gal drums purchased by STACK from BayTec. Also located during the processing of the crime scene was documentation located within the aircraft confirming the suspected aircraft's tail number N2889D. The remnants of the 55 gallon drum was sent to the FBI Laboratory for analysis. The Laboratory's examination found residue, consistent with light aircraft fuel, on the lid.

On 02/20/2010, removal of the aircraft wreckage was initiated by the aircraft's insurance company in accordance with established NTSB protocol. During the removal of the wreckage, additional human remains were found and transported to the Medical Examiner's office for analysis. The additional remains were determined to be of STACK. Final removal of aircraft was completed on 02/21/2010. Once completed, the wreckage was sent to a secure location, pending further law enforcement examination.

On 02/20/2010, the Travis County Medical Examiner's Office conducted autopsies of the two deceased bodies believed to be STACK and IRS employee Vernon Hunter. The attending Medical Examiner (ME) confirmed the deceased as Andrew Joseph STACK III and Vernon Hunter. The ME determined the cause of death for STACK was "blunt force trauma," by means of suicide. The ME determined the cause of death for Hunter was "conflagration," by means of homicide.

On the evening of 02/18/2010, [REDACTED] was re-interviewed by FBI Austin RA. No new leads were generated.

Additionally, [REDACTED] comments did not identify additional collaborators. [REDACTED] granted the FBI voluntary written consent to search the STACK residence.

b6  
b7C

On 02/19/2010 ATF rendered the STACK residence safe for a search by law enforcement. On 02/19/2010 and 02/20/2010, FBI and ATF conducted a search of the residence. During the search, four computers (containing 7 hard drives), a handgun, and a passport in the name of Andrew Joseph STACK were located by agents of the FBI and ATF. The computers were seized and maintained as evidence by FBI San Antonio. Upon getting proper legal process, 5 hard drives were recovered and processed by FBI CART examiners. Data derived from the CART examination was analyzed by agents and analysts of the Department of Treasury, Treasury Inspector General's Office, For Tax Administration (TIGTA). Analysis by TIGTA located an earlier e-mail, authored several years ago by STACK, addressed to the IRS, with similar language found in the abovementioned manifesto. No additional information relevant the investigation was found. Two hard drives could not be recovered or processed, due to extensive fire damage.

On 02/18/2010, the FBI accepted custody of STACK's workstation computer from his employer, DAC International. On 02/19/2010, the FBI received consent from DAC International's attorney to conduct a forensic examination of Stack's workstation computer. Nothing of investigative relevance was located on the computer's hard drive.

FBI Austin RA analyzed numerous call detail records associated with subject STACK, as well as his immediate family members and associates. No information relevant to the investigation was obtained from this analysis.

FBI Austin RA issued subpoenas related to STACK's financial and online activities. An in-depth analysis of the records failed to identify any information relevant to the investigation. A financial record was located indicating STACK purchased approximately 100 gallon's of fuel, from the Georgetown Airport location two days prior to STACK flying his aircraft into the IRS building. This purchase is consistent with the belief that STACK flew his aircraft into the building with a full aircraft fuel tank, and an addition 50 gallon drum of fuel on-board the aircraft.

Numerous associates and family members, to include his former spouse, residing in California, and his step-daughter, residing in Norway were interviewed, in an attempt to determine if there were any other individuals associated with STACK that had prior knowledge of or was complicit in STACK'S criminal

CD's containing data and images of STACK'S computers are currently being stored by CART; however, a request will be made to erase and recycle these items. Assistant United States Attorney [redacted] has advised that all remaining evidence can be returned to the original owners, or destroyed, as appropriate. It is anticipated that no Federal Indictments are forthcoming.
